REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Jaffrey School Board:

I submit at this time my twentieth annual report as Superintendent of Schools, it being the twenty-ninth in the series under union supervision. Enclosed herewith are also the reports of Headmaster Ernest B. Dana, of Conant High School, and Mrs. Helen L. Towne, school nurse.

At the close of the last school year we accepted with regret the resignation of Headmaster Jarvis T. Beal, who became Headmaster of Pembroke Academy.

Mr. Beal gave seven years of splendid service to Conant High School. While we were sorry to lose him from our school and community, we are glad that he has had this opportunity to advance in his profession.

After giving the matter careful consideration Mr. Ernest B. Dana of Lebanon, New Hampshire, was chosen Headmaster.

Mr. Dana is a graduate of Brown University with the degree of Ed. M., from the University of New Hampshire. He was for nine years principal of the high school in Sterling, Massachusetts.

A year ago the demand for a teacher-coach became so insistent that we secured an appropriation for this additional teacher, and were able to secure Mr. John T. Conrad for this position.

Mr. Conrad attended St. Anselm's College, and is a graduate of Keene Normal School. For the past five years he taught mathematics, science and physical training in Wilton, New Hampshire, High School.

Miss Anna B. Eaton retired from her position in the Junior High School after ten years of successful teaching, and with the redistribution of subjects Miss Ruth H. Johnson became a member of the teaching staff.

Miss Johnson is a graduate of Conant High School, 1930; University of New Hampshire, 1934, with a year of graduate work at Bryn Mawr College and the degree of M.S., from New Hampshire in 1936.

Mr. Donald Chamberlain who had taught Grades 4, 5, 6 for two years, was granted a leave of absence to attend Boston University, and Miss Helena K. Brown was transferred from the second grade to grades 4, 5, 6.

The second grade position was filled by the election of Miss Betsy M. Kimball, a graduate of Keene Normal School who had taught successfully for several years in Fitzwilliam schools.

The enrollment of the Jaffrey schools for the present school year is 545. It may be of interest to compare this number with the estimate in our report of last year.

Estimate	Senior High 9—12	Junior High 7—8	Elementary 1—6	Total
	107	114	327	548
Actual Enrollment, 1937-1938	115	110	320	545

The matter of greatest interest to the citizens of Jaffrey is the erection of the new school building for the first six grades.

Action was taken at the school meeting in March, 1937, to prepare for the building, should the Federal grant come through. The final action was delayed in Washington and the March meeting was held open by frequent adjournments until October 5th when the official notice was received from the Federal Emergency Administration of Public Works, that the sum of \$52,335.00 had been granted. To meet this grant the school district on that date voted to increase their appropriation from \$60,500.00 to \$64,000.00, and the issue of bonds to that amount was authorized.

After the final bids were accepted work was begun on December 21, 1937, and during the Christmas vacation the brick portion of Union Hall was taken down and rooms for two grades were prepared on the upper floor of the Annex.

By using the rear entrances all the primary grades are taken care of in the old buildings, which will be taken down when the new building is completed.

The work of the schools has been progressing in a satisfactory manner. With the addition of an extra teacher doing work in both the senior and junior high departments, the teaching load at the Conant building has been considerably lightened.

The primary grades are working under the disadvantage of having construction going on outside their buildings, and have at present no playground space, but both teachers and pupils are meeting a difficult situation, and carrying on their work well.

For years the Jaffrey teachers have carried on their work with classes so large that they have not had the opportunity to give the attention to individual pupils that is needed to obtain the best results. They have, however, given unsparingly of their time and attention to their work and good progress has been made under adverse conditions.

We sincerely hope that with the completion of the new grade building, with its smaller classes for each teacher, that not only will each teacher's load be lighter, but that marked progress may be made by the pupils under more favorable conditions than formerly existed.

I desire at this time to express my thanks and appreciation for the cordial support of all school officials, teachers, parents, and pupils during the past year.

Very truly yours,

LEWIS S. RECORD, Supt. of Schools
East Jaffrey, N. H., February 16, 1938.

REPORT OF HEADMASTER OF HIGH SCHOOL

To Lewis S. Record, Superintendent of Schools, East Jaffrey, N. H.

The following is my first annual report as Headmaster of Conant High School.

Teaching Staff

There have been several changes in the teaching staff occasioned by the resignation of Mr. Jarvis T. Beal, headmaster. The addition of an athletic director, and a redistribution of subjects taught by teachers. Mr. Beal's vacancy has been filled by Mr. Ernest B. Dana of Hanover. Mr. John T. Conrad of Wilton has charge of athletics, and teaches Junior Business Training, and Miss Ruth Johnson of East Jaffrey is teaching Biology. With these changes we now have five teachers doing full time work and three teachers doing part time work.

Enrollment and Attendance

While the present enrollment is one hundred and ten, the total enrollment has been one hundred and fifteen, as compared with one hundred and twenty-four of last year. Four pupils have left school and four have entered from other schools in New Hampshire and in Massachusetts. The distribution of pupils by age and grade follows:

		Age-Grade Table					
		Grades					
Ages		9	10	11	12	P.G.	Total

The attendance for the year 1936-1937 was 96.6% as compared with 95.4% for the state as a whole and the number of tardinesses per pupil was 1.0, which is the average for the state. The number of half days in which schools were in session in 1936-1937 was 346, while the average for the state was 354.1. For the current school year, the per cent of attendance has been 97.09 and the number of tardinesses per pupil .37.

Activities from February, 1937 to February, 1938

DRAMATICS. On December 8 the members of the Senior Class presented a very entertaining and well coached three-act comedy "Love A La Carte", for the benefit of their Washington Trip Fund. This play was both a social and financial success. At the present time the coach of dramatics, Miss Margaret Cournoyer, and members of the Junior Class are working very hard on a three-act comedy "Husbands Three" to be presented in the Grange hall, February 10.

WASHINGTON TRIP. During the April vacation the largest group of Seniors ever to take the trip went to Washington. There were twenty-six members of the class with Mr. Jarvis Beal and Miss Grace Cunningham as chaperones. This year the group was conducted by the headmaster instead of being under the guidance of one of the travel agencies.

Just as many as possible of the points of interest in and about the nation's capitol were visited by the class between the time of arrival there on Saturday evening and Wednesday morning when the party left for New York. There, too, practically every moment was taken up with visits to the most interesting places and with sight-seeing trips.

ATHLETICS. Conant High School had an excellent baseball team, and again completed the season in second place in the Monadnock League. Although the team lost several players at graduation, there should be sufficient veteran material to develop a strong team this coming spring.

With the addition of an experienced athletic coach to the faculty in September interest in high school athletics has greatly increased. Through the proceeds realized by several activities sponsored by local organizations and the generous response of the public, it was possible to equip both boys' and girls' basketball teams with new uniforms, and to start the season off with enthusiasm. An excess of defeats over victories can be explained largely by a lack of experience and a place to practice regularly. The players on both teams have shown constant improvement. As only two players on the boys' team and none on the girls' team will be lost by graduation, plus the

fact that the new gymnasium will be ready for use next season, this improvement should continue.

MUSIC. The work in music consists of about equal division of the time of the supervisor, Mrs. Mildred Whitcomb, devoted to chorus work with the student body and work with the glee club. On May 13, three students, Helene Whitehead, Barbara Fenerty and Sylvio Bernier, accompanied Mrs. Whitcomb to Claremont to take part in the eighth annual symphony concert.

Because of the uncertainty of the length of time for which Union Hall would be available, and the size of the stage in other halls, no concerts or operettas have been planned. Choruses took part however in the program at the Junior High School Prize Speaking Contest, and will again at the Amos Fortune Prize Speaking Contest to be held in the latter part of March, and at graduation in June.

MISCELLANEOUS. In May the Junior Class held its Invitation Ball, which was well attended, and in June, following Graduation, its Reception to the Seniors. It was the social event of the year.

The third Amos Fortune Prize Speaking Contest was held June 3. The winners for the boys were DeForrest Sweeney and Neale Brown and for the girls Frances Naramore and Martha McKinnon.

CONCLUSION. Two additions of equipment are greatly appreciated, namely, the installation of the electric range in the Domestic Arts Room, and of philgas in the chemical laboratory. An additional range, however, could be used to a decided advantage in the Domestic Arts Department.

With the addition of an athletic coach and a teacher who spends part time in the senior high school as well as in the junior high school, it has been possible to somewhat reorganize the courses and extra-class and extra-curricula activities assigned to teachers so that the teaching load is not as heavy. The time schedule has been revised so that the periods are forty minutes net, to meet the state requirements. As yet, it has not been possible to revise the daily program to include an activities period when valuable extra-class, supplementary, and remedial work can be done.

Inasmuch as the mental well being is directly dependent upon the physical, if possible, the taking advantage of clinics, and other health services offered by the state to the schools at little or no expense seems advisable. Among these are tuberculosis clinics, diphtheria clinics, and audiometer tests. It is this type of work which will help in the maintenance of standards which will compare favorably with those of other schools.

Respectfully submitted,

ERNEST B. DANA, Headmaster.

REPORT OF JAFFREY SCHOOL BUILDING COMMITTEE

The Committee chosen at the annual school meeting on March 8, 1937 organized by the choice of Dr. C. F. Wozmak, chairman; Eleanor S. Austermann, clerk; George H. Duncan, treasurer. Wells, Hudson & Granger, Hanover, N. H., were selected as architects.

Formal application was made to the Federal Emergency Administration of Public Works for a grant of \$49,500, being 45% of the estimated cost of a twelve-room grade school building, with auditorium, \$110,000. Much delay was encountered in securing favorable action on this application, owing to doubt as to action of Congress in extending the functions of PWA; but under date of September 28, 1937 a formal "grant offer" of \$52,335, being 45% of an estimated cost of \$116,300, was received.

Plans and specifications were speedily prepared by the architects and bids were opened on November 16, proposals being submitted by 12 parties for the General Contract; 11 for the Heating & Ventilating; 8 for the Plumbing and 8 for Electrical Work. After deducting all alternates the bids unfortunately were found to be about \$10,000 in excess of funds available and all were rejected.

Revision of the specifications was made immediately to reduce the cost by elimination of certain features while not affecting the general utility of the building. By the terms of the "grant offer" it was required that work be commenced on or before December 7, and sufficient time thus not being available to prepare and advertise again for bids, an extension of two weeks was obtained.

Bids again were opened on December 8, virtually all previous bidders being represented and were found still to be slightly in excess of available funds. But by rejecting practically all alternates and transferring \$978 from the amount estimated for equipment to construction account the latter was made sufficient to meet the offers and contracts were signed on December 16.

Following is the latest approved estimate with the names of the several contractors:

Preliminary		\$100 00
Construction:		
General, Columbus & Berg	\$81,179 00	
Heating, etc., M. J. Flaherty Co.	11,697 00	
Plumbing, L. H. Goulet	4,568 00	
Electrical, A. C. Senecal Co.	4,017 00	
Contingencies	2,000 00	
Equipment	5,022 00	
		<hr/>
		108,483 00
Engineering		5,937 00
Clerk of Works		1,000 00
Interest during Construction		600 00
Miscellaneous		180 00
		<hr/>
		\$116,300 00

The General Contractors commenced work on December 20 and are progressing as rapidly as weather conditions will permit. Under the terms of the "grant offer," work must be completed by September 25, 1938. Mr. Harry B. Dore, Portsmouth, N. H., has been assigned by the Public Works Administration to the project as Resident Engineer Inspector, while the committee chose Mr. David F. Griffiths, of Jaffrey, as Clerk of Works.

The plans show that the structure when completed will consist of the school section, two stories high, 126 feet, 4 inches long and 58 feet, 6 inches wide. There are to be six schoolrooms on each floor, of varying sizes, but each seating approximately 35

pupils, with additional rooms for teachers, nurse, library and toilets. If, as contemplated, Grades V and VI are transferred from the present High School building to the new building, ten rooms in the latter will be occupied, thus leaving two rooms for future expansion. The building is so constructed that, for future growth, a wing may be extended westerly from the northerly end.

The auditorium section is at right angles to the school section at the southerly end and is also of two stories, 102 feet, 6 inches long and forty-seven feet wide. With the balcony over the entrance lobby its seating capacity will be 600, while the stage will be approximately 22 feet deep with a proscenium arch 27 feet wide. In the basement will be located toilet rooms, shower baths, playroom 44 feet by 42 feet and the heating plant.

The location of the new building is such as to require the previous razing of only the brick portion of Union Hall building and the entrance to the wooden building. By using the rear fire escapes on the latter as general entrances, and by installing a partition on the second floor of the Annex, thus dividing it into two schoolrooms, all schools are reasonably well accommodated without going outside. The General Contract required that all changes in the wooden building, the closing of openings in the east wall of the Annex and maintenance of the heating plant be done by the contractor; thus the only school expense incurred, aside from that for moving equipment, was \$64.00 for changes in the Annex.

In accordance with the vote of the District, the tract between the school grounds and Charlonne Street was purchased from Elmer H. Eaves for \$1,500. With the additional funds appropriated a substantial roadway was constructed from Charlonne Street to the rear of the school buildings for use as the only entrance during construction and for an additional exit after completion. All loam from the roadway and from a considerable part of the balance of the tract was removed and piled for use in finish grading around the new building. The portion thus cleared, being somewhat below grade, serves as a convenient place for disposing of "spoil" from excavation, while it is expected that a major part of the rock from excavation and from the roadway will be hidden in the cellars of the demolished buildings.

Among the alternate rejected for lack of funds were those providing for finish grading and drives and concrete walks. It is expected that this work can be done as Works Progress Administration projects.

Another alternate which the committee rejected with reluctance was that for automatic stokers for the heating plant. As an indication of their probable cost it may be stated that the average alternate bid of the eleven proposals for heating was \$1,384 for this item. It is felt that their installation would mean a constant saving both of janitor salary and fuel; and the committee strongly recommends that automatic stokers be provided for in an additional appropriation.

No contractor can take the risk of meeting rock in excavation; it always is an extra at the cost of the owner. Unfortunately in excavating for the new building 575 cubic yards of rock were encountered, entailing an extra expense of \$4,945.00, for which no funds are available.

So far as the committee now can foresee, there are no further important expenses unprovided for. However, the amount of the PWA grant is fixed and any additional cost must be met by the School District.

Thus it is recommended that \$7,000.00 additional be appropriated, this covering the extra cost of rock excavation and the automatic stokers, with the balance for contingencies. Voters

and taxpayers **may** be assured that the committee will use every effort to **keep** expenditures at the minimum consistent with proper work, regardless of the amount at their disposal.
